(Network totals are as of April 2023 and exclude NPs and PAs).

The Dignity Health Network

With the largest physician network in Santa Cruz County, Dignity Health delivers access through **Dignity Health Medical Group – Dominican**, which is part of the broader **Dignity Health Medical Network – Santa Cruz** (DHMN – Santa Cruz) that includes hundreds of affiliated independent physicians and specialists.

Our doctors are here to care for patients through every stage of life. By choosing a Dignity Health primary care physician (PCP), patients have access to:

Timely care—Our primary care physicians and pediatric providers offer same-day appointments.*

*Subject to availability.

Virtual visits—safe and convenient appointments with primary and specialty care physicians without leaving the comfort of home

The **My Care App**—Dignity Health's online patient portal, making it easier than ever to securely communicate with health care providers and access or update important personal information

With the Patient Portal, users can:

- Choose a physician
- Schedule and view appointments
- Pay medical bills
- Review lab results
- Communicate with the physician team
- Manage health records
- And much more

Dominican Hospital

And when patients need the support of acute care services, they can rest assured they have access to a nationally recognized, state-of-the-art medical facility right in the place they call home.

Notable

For our patients' convenience, Dignity Health offers Notable, a virtual registration and clinical intake experience. This pre-registration tool reaches out to patients via text message or email prior to their appointments, allowing them to submit demographic and insurance information, photo ID, required consent forms and clinical information (such as reason for visit, allergies, medication adherence and other medical histories)—all from the comfort of home.

Integrating Wellness Into Our Community

The Dignity Health Wellness Center at Dominican Hospital opened in July 2021, and is committed to supporting our patients' pursuit of wellbeing that goes beyond an illness or infirmity.

We recognize the strong relationship between our lifestyle habits and our health. Our state of the art facility offers a wide range of health, wellness and rehabilitation classes, both in-person and virtual, for people of all ages and abilities. And we are staffed with a team of highly skilled clinical specialists – exercise physiologists, registered dietitians, registered nurses and respiratory therapists.

As an additional benefit to our patients, we have taken the step to integrate referrals to the Wellness Center into electronic medical health record. This allows physicians and other primary care providers to have a direct link with Wellness Center staff, allowing for immediate communication regarding programs, individual progress and outcomes.

The programs we offer at the Dignity Health Wellness Center include:

- Diabetes risk reduction and management education
- Stroke prevention education
- Nutrition education and weight management programs
- Medical exercise and fitness programs for fragile populations
- Health and wellness classes
- Risk assessment and screening programs
- Pre and postnatal care program
- Childbirth and parenting classes
