

# Thank You Donors: YOU Are the Heart of St. Joseph's!

St. Joseph's Hospital and Medical Center re-affirmed its commitment to transforming cancer care for Arizonans when it opened its new cancer center in 2015, offering the pinnacle of care in the most peaceful, comforting environment possible. Donations are essential to the success of the center, ensuring that physicians are equipped with the most advanced technologies for diagnosing and treating all forms of cancer.

Our ability to provide top-notch care to patients depends heavily on the generosity of the community we serve. Donations of all sizes are needed to:

- Enable cancer programs to evolve and expand to meet patient needs
- Ensure that our hospital and cancer center are equipped with cutting-edge technology to diagnose cancer as early as possible and treat it as effectively as possible
- Allow the cancer center to attract and retain top oncology specialists with experience treating all kinds of cancer
