POLICY:

In keeping with the standards for appointment to the Medical Staff as set forth in Article III, Section 4, of the Medical Staff Bylaws, all Medical Staff members shall conduct themselves at all times while on Saint Francis Memorial Hospital (SFMH) premises in a courteous, professional, respectful, collegial, and cooperative manner. This applies to interactions and communications with or relating to Medical Staff colleagues, Allied Health Professionals (“AHP”), nursing and technical personnel, other caregivers, other SFMH personnel, patients, patients’ family members and friends, visitors, and others. Such conduct is necessary to promote high quality patient care and to maintain a safe work environment. Behaviors that undermine a culture of safety including behavior that can be construed as discriminatory or harassing, as defined below, are prohibited and will not be tolerated.

DEFINITIONS OF TYPES OF BEHAVIORS THAT UNDERMINE A CULTURE OF SAFETY

That a practitioner’s behavior is unusual, unorthodox or different is not sufficient to justify disciplinary action nor alone does it imply that a practitioner is disruptive.

- A. Behavior that undermines a culture of safety is marked by disrespectful behavior manifested through personal interaction with practitioners, SFMH personnel, patients, family members, or others, which:
 - 1. interferes, or tends to interfere with high quality patient care and patient safety or the orderly administration of the Hospital or the Medical Staff; or
 - 2. creates a hostile work environment; or
 - 3. is directed at a specific person or persons, would reasonably be expected to cause emotional distress, and serves no constructive purpose in advancing the goals of health care.

- B. “Discrimination” is conduct directed against any individual (e.g., against another Medical Staff member, AHP, SFMH employee, or patient) that deprives the individual of full and equal accommodations, advantages, facilities, privileges, or services, based on the individual’s race, religion, color, national origin, ancestry, physical disability, mental disability, medical disability, marital status, sex, gender, or sexual orientation.

- C. “Sexual harassment” is unwelcome verbal or physical conduct of a sexual nature, which may include verbal harassment (such as epithets, derogatory comments or slurs), physical harassment (such as unwelcome touching, assault, or interference with movement or work), and visual harassment (such as the display of derogatory or sexual-themed cartoons, drawings or posters). Sexual harassment includes unwelcome advances, requests for sexual favors, and any other verbal, visual, or physical conduct of a sexual nature when (1) submission to or rejection of this conduct by an individual is used as a factor in decisions affecting hiring, evaluation, retention, promotion, or other aspects of employment; or (2) this conduct interferes with the individual’s employment or creates an intimidating, hostile, or offensive work

environment. Sexual harassment also includes conduct indicating that employment and/or employment benefits are conditioned upon acquiescence in sexual activities.

- D. Other Prohibited Harassment includes behavior which creates a hostile or offensive work environment based upon other protected characteristics, included but not limited to, race, sexual orientation, medical condition or age.

EXAMPLES OF PROHIBITED CONDUCT

Examples of prohibited, disruptive conduct may include, but are not limited to, any of the conduct described below if it is found to interfere, or tend to interfere, with patient care or the orderly administration of the Hospital or Medical Staff; or, if it creates a hostile work environment; or, if it is directed at a specific person or persons, causes physical or emotional distress:
