The Women's Center at Mercy Hospital Southwest

Services

At The Women's Center at Mercy Southwest, we are committed to providing for all your women's health needs. Our specialists are trained to provide primary and preventative healthcare for women of all ages.

Urogynecology

Expanded and Enhanced Services

The Women's Center at Mercy Hospital Southwest is home to the only board certified and fellowship trained urogynecologist in the Central Valley. It is composed of highly trained staff who provide innovative and specialized care for women with pelvic health issues. The Center offers both surgical and non-surgical treatment options to advance the health of women in Kern County.

Radiology

The Highest Standards of Care

The Women's Center at Mercy Hospital Southwest is fully accredited by The Joint Commission, the American College of Radiology, and the American College of Surgeons Commission on Cancer. Accreditations like these are achieved by programs that offer a full range of medical services and ensure that the highest quality and care standards are maintained at all times. Our board certified radiologists and experienced imaging technologists work together to produce quality images and evaluations for physicians and their patients. Screenings by appointment only.

Lactation

The Lactation Support Center

Bakersfield's first center to offer a full scope of resources for breastfeeding women. Our center offers pump rentals, a retail store filled with items made especially for breastfeeding mothers, and the personalized support of our trained staff. Through the Lactation Support Center, the high-quality care our hospital is known for is extended to you even after you and your baby go home. Lactation consultations by appointment only.
