5:15 pm	Evaluations and Certificates
5:30 pm	Adjourn

**Additional Instructions: Extremely Important**

You are responsible for making certain that your attendance is appropriately recorded. Please check with the onsite coordinator for the following items:

- Course Sign-In Sheet: Must be initialed by attendee each day.
- Case Log: **Extremely important!** Each case must be recorded by each physician on the Case Review Log located in the course workbook. Please make a copy of the completed form from one workbook and return it to the program coordinator for permanent record in the Office of CME. If there are any questions from the SCCT about the cases reviewed, this log will serve as proof of review.

If these items are not completed correctly and returned promptly, the Office of CME will not be able to provide CME credits or assist your physicians with the SCCT Level II Verification. The credentialing bodies are very strict about getting all the paperwork correct.

We appreciate your extra attention to these details.
