

Lab Add On* Instructions

Do you need to place an additional test to your lab order, but the samples have been collected?
Do this!

- Access the patient in Cerner PowerChart and search for **Lab Add On***

- In ***Lab Orders to Add** field box, type in the requested test(s)
 - For non-blood orders, type in the specific source (Right Pleural Fluid, Peritoneal Fluid, Urine, etc.) after the requested test
 - For culture add on, type in the specific culture type (Wound/Abscess Culture, Body Fluid Culture, Urine Culture, etc.)

- If the requested test can be added to an existing specimen, the lab will complete the Lab Add On* requested. The order section of PowerChart will look like the following:

Order Name	Status	Details
Lab Add On*	Completed (Final)	10/25/17 18:42:00 PDT, No Specimen Add lab order: Maqr
Basic Metabolic Panel (BMP (Lytes, Glucose, Bun, Creat, & CA))	Ordered (In-Lab)	10/25/17 18:38:00 PDT, Blood, Stat, Lab Collect
