

Paving the way for Your New French Hospital.

Thank you for your unwavering patience and support as we undergo the Johnson Avenue construction project. This project is paving the way for the hospital of the future, *Your **New French Hospital***, a monumental transformation that will revolutionize our hospital campus and advance health care in San Luis Obispo County.

This project will make much-needed modifications to traffic flow to and from the hospital parking lots, the site of the future parking structure, and the new patient care tower. The project will also improve pedestrian walkways.

We are dedicated to minimizing any inconvenience during your visit, and there will be no disruption to patient care. We value our relationships with our patients, and thank you for your understanding. To learn more, visit gobeyondhealth.org.
