

DH Central Coast Sponsorship

We are committed to supporting positive community initiatives, organizations, and programs that improve the health and well-being of all citizens we serve.

We are dedicated to furthering the principles of our healing ministry by funding programs that serve the poor and needy, that seek to enhance health and wellness, and those that champion education.

While supportive in spirit of all approaches that encourage positive community improvements, we are limited to providing financial support to projects we view as most closely aligned with our core [mission and values](#).
