

Frequently Asked Questions

MD Imaging (MDI) to join Dignity Health Advanced Imaging (DHAI)

1. Why is Dignity Health Advanced Imaging (DHAI) acquiring MD Imaging (MDI)'s radiology practice?

This alignment marks an important step forward in our strategy to expand on our goal to bring fully-integrated, comprehensive care to the Redding area while accommodating for the growth of the community.

Patients and community members will have access to fully-integrated services that account for the whole patient experience across the spectrum of care. This includes increased access to specialists within the Dignity Health Network including neurology, oncology, cardiology, women's health and [Mercy Regional Cancer Center](#).

We look forward to building upon MDI's legacy and commitment to providing exceptional imaging services in the Redding area.

2. I am currently an MD Imaging (MDI) patient. Is there anything I need to do?

There is no action for MDI patients to take today as a result of this change. The transition is expected to take place in **spring, 2024**. We will continue to share information with patients and the community as changes occur. For information about DHAI, visit dignityhealth.org/dhai.

3. What services will DHAI provide?

DHAI has served patients across California for over 11 years. We strive to extend compassion and personalized care to our patients during their diagnostic imaging and procedure experience.

We offer mammograms, PET scans, interventional radiology, computed tomography (CT scans), MRIs, ultrasounds X-rays and more. More information on [DHAI services](#).

4. Will I be able to see my same clinician?

DHAI will be welcoming MDI clinicians to their radiology group. MDI patients will be able to receive care from the clinicians they know and trust while gaining access to the Dignity Health Network.

5. Will this make services more expensive?

We expect this agreement to bring additional benefits to the community, including more integrated and affordable services for patients, and increased physician recruitment to serve the community's health care needs.

Dignity Health Advanced Imaging accepts most major insurances including MediCal and Medicaid.

6. Do I have to be a Dignity Health patient to receive services from Dignity Health Advanced Imaging?

No, DHAI will accept referrals from all community providers.

7. Is DHAI part of Dignity Health Medical Group — North State or Mercy Medical Center Redding?

DHAI is a full-service radiology and imaging group, separate from [Dignity Health Medical Group — North State](#) and [Mercy Medical Center Redding](#), with its own leadership team.

Dignity Health Medical Group — North State and Mercy Medical Center patients will benefit from the integrated network with DHAI.
