Instructions for Medical Imaging Examinations

Barium Enema:

- The day before the examination, have a clear liquid lunch. Clear liquids include: Jell-O, bouillon, apple juice, etc. No dairy products.
 - Your doctor should order a bowel prep kit for you that you will need to pick up at any pharmacy at least a day prior to your exam.
 - Beginning at 4:00 p.m. the day before the examination, follow the instructions found in the bowel prep kit.
 - Drink a minimum of 8 ounces of fluid, every hour until 10:00 p.m. Do not eat or drink anything after 10:00 p.m.
 - Take morning medications with only a small amount of water.
- ** This exam scheduled for morning appointments only ****

UGI Series:

- Do not eat or drink anything after midnight the night before the appointment.
 - Take morning medications with only a small amount of water.
- ** This exam scheduled for morning appointments only ****

CT Abdomen and/or Pelvis:

- Drink at least 2 or 3 eight ounce glasses of fluids the night before the appointment.
 - Please arrive 3 hours before your appointment time to begin drinking an oral contrast for your exam. Do not eat or drink anything else until your test is completed.
 - Take morning medications with only a small amount of water.
 - Drink extra fluids for the rest of the day after your test if permitted by your doctor.
- ** with or wo+w contrast exams require Creatinine lab test results before scheduling ****

CT scans with I.V. contrast:

- Drink at least 2 or 3 eight ounce glasses of fluids the night before.
 - Do not eat or drink anything beginning 2 hours before the CT examination.
 - Drink extra fluids for the rest of the day after your test if permitted by your doctor.
- ** with or wo+w contrast exams require Creatinine lab test results before scheduling ****

Ultrasound OB or Pelvis:

- Empty your bladder two hours before your exam.
(Transvaginal ultrasound requires an empty bladder)
- Start drinking and finish 32 ounces of water within the first hour.
- Do not empty your bladder until after your exam is completed.

Ultrasound Abdomen:

- Do not eat or drink anything beginning 6 hours before the appointment time.

MRI Abdomen (MRCP):

- Do not eat or drink anything beginning 4 hours before the appointment time.

Please call St. Bernardine Medical Center Imaging Department at 909-883-8711, ext. 23630 for any questions relating to your examination.
