of the Siena Hospital Campus

G. Rodney Buzzas, MD,
MS-HQSM
Chief Medical Officer

Calaiselvy Elumalai
Chief Nurse Executive

Description: Building on a foundation of seven decades of unparalleled care for the body, mind and spirit in Henderson and Las Vegas, the Dignity Health-St. Rose Dominican, Siena Campus - our ministry's flagship Nevada hospital - celebrated the 20th year of its healing mission in July 2020.

Constantly growing and expanding to meet the medical needs of the community, Siena recently completed relocation and expansion of its Pediatric Emergency Department, the only Pediatric ER facility in Henderson, Nevada's second largest city. The enhanced facility features nine dedicated Pediatric Emergency beds, separate Pediatric ER entrance, admitting waiting areas, and parking.

The Siena Campus achieved accreditation as a Center of Excellence in both Robotic Surgery and Hernia Repair, recognized for providing the highest quality of care and patient safety by Surgical Review Corporation, an independent, not-for-profit, organization administering best-in-class accreditation programs. Siena was the first Nevada hospital to achieve this accreditation.

In 2019, the Dignity Health Rehabilitation Hospital was added to the Siena campus. The 60-bed, private room hospital offers the area's highest level of rehabilitation services for patients recovering from stroke, traumatic brain injury, amputation, neurological disorders, and spinal cord injury.

As Nevada's only not-for-profit, faith-based health system, Dignity Health-St. Rose Dominican has been guided by the vision and the values of the Adrian Dominican Sisters since 1947. For more than 75 years, as the Henderson and Las Vegas communities grow, the St. Rose Dominican health system and its nearly 4,000 employees continue the Sisters' healing mission of serving people in need.

Siena Fast Facts & Awards:

- Opened in July 2000, 326 Inpatient beds
- Level III Trauma Center, 47-bay Emergency Department with 4 trauma rooms
- Henderson's only Pediatric Emergency Room
- 26-bed Level III Neonatal Intensive Care Unit and 6-bed Pediatric Intensive Care Unit
- Southern Nevada's Children's Miracle Network hospital
- 16 surgical suites, 1 Hybrid Room, 2 CVOR Suites, 1 designated DaVinci Xi Robotic Room
- In its 2024-25 survey, U.S. News & World Report, the global authority in hospital rankings and consumer advice, Siena Hospital earned a High Performing rating in ten treatment areas, more than any other southern Nevada hospital. Siena earned High Performing ratings for Heart Attack, Heart Failure, Kidney Failure, Knee Replacement and Stroke. High Performing is the highest award a hospital can earn in U.S. News' Best Hospitals Procedures & Conditions ratings. In recognition of care that was significantly better than the national average, as measured by factors such as patient outcomes.
- Newsweek Magazine names Siena Hospital as one of Nevada's top five hospitals in its 2025 Best-in-State Hospitals list. The national survey highlights 700 leading hospitals at the state level to help readers find trusted medical facilities no matter where they live.
- Siena earned a Joint Commission Certificate of Distinction for the hospital's Joint Replacement Knee and Hip program.
- Siena was awarded Chest Pain Center Accreditation with Primary PCI by the American College of Cardiology, after rigorous onsite evaluation of the staff's ability to evaluate, diagnose and treat patients who may be experiencing a heart attack.
- Siena received the *2023 American Heart Association Get With The Guidelines® - Get With The Guidelines® - Coronary Artery Disease STEMI Receiving Center - GOLD Award*. The award recognizes commitment and success in implementing a high standard of care by ensuring patients receive treatment that meets nationally accepted, evidence-based standards.
