

Arizona Communities of Care Network 2015

This group is comprised of community organizations and agencies that are currently working within a Community of Care or are interested in participating in a Community of Care.

Objective

St. Joseph's Hospital and Medical Center provides a structured environment for community organizations to work collaboratively, share resources and learn from each other. Organizations will work collectively within a "Community of Care" to reach community goals related to Dignity Health's Community Benefit Plan and Report in relation to the Community Health Needs Assessment.
