

St. Joseph's 22nd Annual Cancer Symposium for Health Professionals

Pancreatic Cancer: Diagnosis, Prognosis, and Evolving Treatment Modalities

Tuesday, February 18, 2020 | 4:30-8:30 PM

Stockton Golf and Country Club

3800 Country Club Blvd, Stockton

Cost: \$35 (includes dinner)

Credit: 3 CEUs for nurses, pharmacists and clinical laboratory scientists,
3 CME/CE, 3 AMA PRA Category 1 credit

Learning Objectives:

A Medical Oncologist's Perspective on Blending Technology and other Disciplines in Providing the Best Care for Patients with Pancreatic Cancer

Instructor: Sunny Philip MD, Oncologist, Stockton Hematology and Oncology Group

- Discuss how genetics is increasingly contributing to the diagnosis and treatment of patients with pancreatic cancer.
- Describe the differences in staging between borderline and unresectable locally advanced pancreatic cancer.

Pancreatic Cancer Diagnosis and Treatment Planning-Defining the Role

Instructor: Gurtej Malhi MD, Gastroenterologist, Dignity Health, St. Joseph's Medical Center

- Examine the role of the GI Doctor in the management of pancreatic disease within the framework of the multidisciplinary team.
- Review of optimal interventional imaging and diagnostic tools being used for this disease.

What is the Surgeon's Role in the Approach to Pancreatic Cancer; Including Metastases to the Liver?

Instructor: Brendan C. Visser MD, Associate Professor of Surgery, Hepatobiliary & Pancreatic Surgery, Medical Director, Cancer Center GI Clinical Care Program, Stanford University School of Medicine

- Discuss how changes in the sequencing of treatment- when to initiate surgery and chemotherapy can improve median survival for many patients with pancreatic cancer.
- Analyze and discuss the PAC Resectability Scoring System (RSS) and how it may provide a more objective approach to treatment planning while also improving diagnosis and median survival for those with pancreatic cancers.

Pre-registration is required by February 3, 2020
