

Girls Night In

Join us on Zoom for this virtual educational event

Thursday, October 22, 2020 • 5:30 p.m.

Please call Ashley Hahn at 805-346-3402 to register or for more information

*Participants will
receive a special gift!*

Women have particular concerns regarding cancer and its effect on their lives. Girls Night In will feature a panel of experienced medical professionals leading a discussion about GYN oncology and breast cancer. This event will also

include a question and answer session allowing participants to discuss the topics they're most interested in.

This is a great time to get the facts about early detection, prevention strategies, treatment advances and survivorship techniques.

Keep up with all of our events:
