St. Bernardine Medical Center

ADVANCED OUTPATIENT DIAGNOSTIC SERVICES

The Center for Imaging at St. Bernardine offers some of the most comprehensive, state-of-the-art outpatient imaging services available to patients in the Inland Empire. A recent \$1.6 million renovation of the Center allows patients and physicians access to advanced diagnostic services and procedures.

- Bone Densitometry
- Breast Ultrasonography
- Diagnostic X-ray
- Digital Mammography
- Magnetic Resonance Imaging
- Nuclear Medicine
- Stereotactic Biopsy

CENTER *for* IMAGING at St. Bernardine

COMFORT, CONVENIENCE and RESPONSIVE SERVICE

The Center for Imaging is designed to provide a soothing and welcoming environment for patients. It is conveniently located in the 401 Highland Avenue building on the campus of St. Bernardine Medical Center, just off the 210 Freeway in San Bernardino. There is ample, free parking and handicap accessibility. All private insurance plans are accepted, as well as Medicare and Medi-Cal.

Knowing quick diagnostic turnaround is of utmost importance to a patient's physical and emotional health, the Center offers speedy appointment availability Monday – Friday. Physicians usually receive results reports within 24 hours.

Women's Health & Wellness

The latest additions to the Center's advanced technologies and services significantly expand patient access to a full complement of women's diagnostic and biopsy services, as well as educational programs.

- The latest three-dimensional digital mammography technology
- A stereotactic biopsy suite with a dedicated biopsy system, available five days a week
- New ultrasound technology with the capability to perform ultrasonic breast biopsies
- Bone densitometry equipment to diagnose osteoporosis
- A nurse dedicated to providing individualized guidance and support for women diagnosed with breast cancer, helping patients navigate the system and providing education about the disease process for the best possible outcomes.

DEMONSTRATED QUALITY CARE

As the community has grown and technology has advanced, the Center for Imaging continues to expand to meet the need. The Center performs over 1,200 mammography procedures, 800 MRIs, 4,300 diagnostic X-rays and many other procedures each year. With the new equipment and expanded hours, St. Bernardine will soon be providing nearly 10,000 diagnostic procedures and biopsies each year.

SPECIALIZED PROGRAMS AND SERVICES

- **Weight Loss Services:** Includes laparoscopic, bypass, gastric sleeve and revision surgeries.
- **Wound Healing Center:** Outpatient center, offering chronic wound treatment, including hyperbaric medicine.

A HERITAGE OF PATIENT SERVICE

The Center for Imaging is an outpatient service of St. Bernardine Medical Center, a highly regarded 463-bed nonprofit general acute care hospital. In addition to a full continuum of inpatient and outpatient services, St. Bernardine's responsive, quality care extends to its Wound Healing Center in San Bernardino and freestanding Urgent Care Centers in Fontana and Highland.

Among the largest hospitals in the Inland Empire, St. Bernardine is a direct reflection of the mission and values established by the Sisters of Charity of the Incarnate Word of Houston, Texas, who founded it in 1931. The hospital is a member of Dignity Health, the largest not-for-profit hospital provider on the West Coast.

LICENSES AND ACCREDITATIONS

Center for Imaging is accredited by the American College of Radiology in digital mammography, nuclear medicine and magnetic resonance imaging.

All Radiologists are board certified by the American Board of Radiology.
