Dignity Health Policy for Selection of CJR Collaborators

Dignity Health has adopted policies to govern the selection of CJR collaborators to ensure compliance with applicable regulations included in 42 CFR § 510 as set forth below:

General Requirements for Collaborators

Each participating Dignity Health Hospital will select CJR collaborators in a manner consistent with the all applicable legal requirements and based on quality performance criteria and participation in care redesign (i.e., collaborators will be required to participate actively in care redesign for improving and enhancing the care and management of care for beneficiaries in a CJR episode).

The Dignity Health Audit and Compliance Committee shall review and approve any proposed criteria for selection of CJR collaborators. The selection criteria shall not be based directly or indirectly on the volume or value of referrals or business otherwise generated by, between or among the Hospital, the collaborators, and any individual or entity affiliated with the Hospital or collaborator. Any collaborator selected for participation in the program must sign an agreement with the Hospital setting forth the elements of the program and the sharing arrangement in order to be eligible for payments.

Additional Requirements for Physicians Collaborators

Each physician must

- be an active member of the medical staff in good standing
- hold clinical privileges to perform episode-based procedures in the CJR program
- be a participating provider in the Medicare program
- be in compliance with all Medicare provider enrollment requirements (set forth at 42 CFR. Sections 424.500 et seq.)

- have signed an agreement with the Hospital relating to the sharing arrangement and not be in breach of such agreement or any representation and warranty made in such agreement
- agree to participate in care redesign activities related to the CJR program
- have and maintain a valid and active tax identification number and NPI and
- must not be excluded from participating in Medicare, Medicaid, or any other federal healthcare program, as defined at 42 USC Section 1320a-7b(f).

Additional selection criteria may be approved by the Dignity Health Audit and Compliance Committee. The selection criteria for physician collaborators shall not be based directly or indirectly on the volume or value of referrals or business otherwise generated between the Hospital and collaborator physicians.
