

Methodist Hospital of Sacramento

Built in 1973, Dignity Health Methodist Hospital of Sacramento is committed to providing daily excellence in health care for residents of Sacramento's southern suburbs, including the Elk Grove, Wilton and Galt communities. Methodist Hospital is home to a 158 acute-care bed facility with 1,168 employees, 587 medical staff, and 29 Emergency Department beds. Methodist Hospital also owns and operates Bruceville Terrace – a 171-bed, sub-acute skilled nursing long-term care facility adjacent to the hospital that provides care for the elderly, as well as those requiring extended recoveries.

Methodist Hospital is home to the Family Medicine Residency Program, an accredited and nationally recognized program which provides resident physicians with specialty training in primary care family medicine. Together, the hospital and residency program implemented a ground-breaking curriculum addressing the identification, treatment and assistance of human trafficking victims and created a one-of-a-kind health clinic for victims, the Human Trafficking Medical Safe Haven.
