INSTRUCTIONS FOR IMAGING EXAMINATIONS

Carefully follow the instructions below. If you have any questions, please call our office at least 24 hours before your exam.

Upon your visit to one of our imaging centers, please bring your health insurance verification and physician referral slip, along with any previous films or reports provided by your physician.

If there is a chance that you are pregnant and are scheduled for any examination other than an ultrasound, please call our office.

Children 11 and under cannot be left unattended or go into the exam room with you.

MRI - If you have a pacemaker, brain aneurysm clips, or any implanted medical device please notify our office.

PET/CT - For 6 hours before your test, do not eat or drink (except water). Your last meal before the scan should be high in protein and low in carbohydrates – no pasta, potatoes, rice or bread. Avoid caffeine, sugar, tobacco and heavy exercise for 24 hours prior to your exam. Certain medications may need to be temporarily withheld in preparation for your exam. If you have diabetes, discuss this with your physician and call the center staff 48 hours before your scan. Avoid wearing clothes with heavy buckles or metal components.

CT - Unless specified by the staff at Mercy Imaging Centers, no special preparation is necessary.

Mammography - Please wear a two-piece outfit. Do not wear deodorant, talcum powder or perfume the day of your exam.

ULTRASOUND

OB/GYN, Pelvic - One and a half hours before your exam, drink four 8 oz. glasses of water. **Do not empty your bladder before your exam. A full bladder is essential for quality film images.**

Abdomen, Liver, Pancreas, Gallbladder - Do not eat or drink anything for at least 12 hours before your exam.

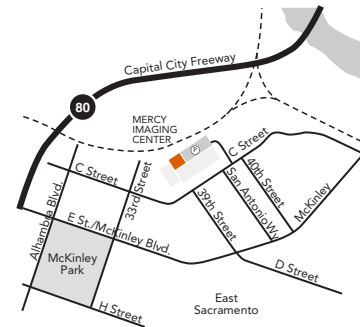

Thyroid, Leg, Other - No special preparation is necessary.

DEXA Scan - Avoid calcium supplements at least 2 hours before your appointment. Wear comfortable clothing avoiding zippers, underwires or metal buttons.

Upper GI (Stomach), Esophagus, Small Bowel - Do not eat, drink, chew gum or smoke after midnight on the evening before your exam and on the day of your exam. After your exam is finished, increase your intake of fluids.
